

Teradata Education

TRAINING AND EDUCATION

Strengthen Your Skills, Your Career, and Your Value with World-Class Training

Teradata® Education designs, develops, and delivers education that builds skills and capabilities to enable your company to maximize its Teradata investment.

Our cost-effective training is delivered by highly experienced instructors, and offers a world-class collection of online content that:

- Builds knowledge of the technical staff to keep systems running smoothly and efficiently
- Teaches developers how to quickly and effectively implement applications that meet the needs of the business
- Helps business users discover ways to unlock the power of data, increasing your organization's ROI

Blended Learning Approach

Teradata offers a variety of learning formats to suit your needs. The combination of web technology through the Teradata Education Network, along with hands-on instructor-led training, gives each user level a wide range of opportunities to gain knowledge and expand skills. Our flexible education options build upon and complement one another for a cost-effective, robust offering.

Covering a broad range of subjects, our training programs offer the essential knowledge needed to achieve swift and smooth IT implementation at every organizational level.

Instructor-Led Training Options

Classroom Instructor-led Training

Teradata offers public instructor-led classroom training at select locations worldwide.

Benefits of Teradata Education

Flexible delivery options

Training enables you to come up to speed on new technology, quickly and efficiently

The latest and greatest

Training is available on new software versions, features, and products

Learn from the experts

Teradata is the only authorized provider of Teradata training

TERADATA.

Virtual Instructor-led Training

With Virtual Instructor-led Training (VILT), you can take scheduled Teradata instructor-led courses anywhere you can connect to the internet, without having to travel. And you receive the same training content as with courses offered in the traditional classroom setting, interacting with the same top-quality Teradata instructors. VILT courses also offer complete hands-on labs, connecting to a live Teradata system right from your desktop.

Visit [Teradata.com/TEN/classes](https://www.teradata.com/TEN/classes) for a calendar of our latest public classroom offerings.

Private Virtual Instructor-led Training

If you have employees in multiple geographies, Teradata offers private VILT classes, which can be customized to your specific needs.

Onsite Classroom Training

Teradata Education can deliver any instructor-led course listed in our catalog at your location. This allows you to take advantage of the most convenient timing and location to maximize your training investment—while reducing travel expenses and time away from the job. Hands-on lab exercises can be performed on your servers, or ours. Also, by combining selected topics from our standard offerings, Teradata can customize courses tailored to your specific needs.

The Teradata Certified Professional Program

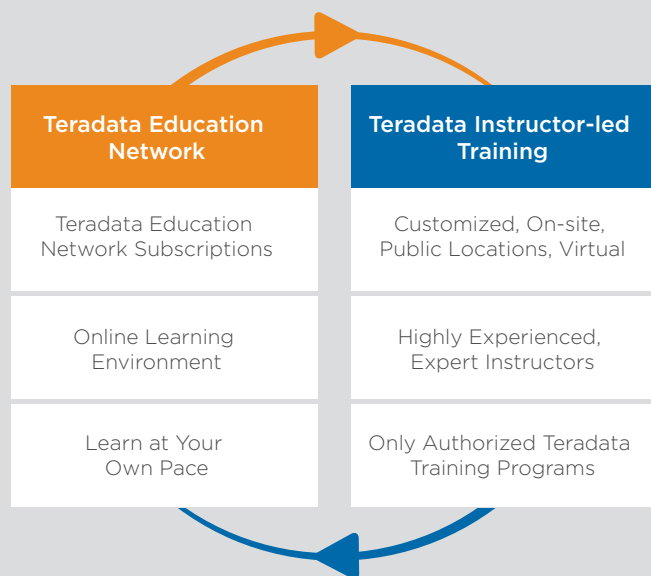

Maximize your competitive advantage with Teradata Certification. Whether you're a new user or a seasoned professional, Teradata has a certification that is right for you. Plus, each level builds upon the last, so you can continue to pursue additional certifications as you advance in your career. To learn more, visit [Teradata.com/Certification](https://www.teradata.com/Certification).

Self-Paced Training Options

The Teradata Education Network

Attend class from the comfort of your own desk! The Teradata Education Network (TEN) is a world-class online learning portal that allows you to harness the power of the internet, so you can expand your Teradata knowledge at your own pace—anytime, anywhere.

Learn when you want, where you want!

Web-based Training Courses

Web-based courses are formal, self-paced training conducted via the Teradata Education Network. Some of our popular instructor-led courses are also offered as web-based courses, allowing you to choose the format best suited to your needs.

Webcasts

Webcasts are structured, one- to two-hour presentations taught by top subject matter experts, and delivered via the Teradata Education Network.

- **Live Webcasts:** Stay up to date on the latest Teradata topics with live webcasts featuring our newest, most popular presentations brought to you by seasoned Teradata subject matter experts. You'll have the opportunity to ask questions and discuss the content in real time.
- **Recorded Webcasts:** Teradata also offers more than 175 recorded webcasts covering a wide variety of technical and business subjects. Recorded Webcasts may be accessed via the Teradata Education Network twenty-four hours a day, seven days a week.

Learning Library

A collection of learning materials that includes white papers, Orange Books, and articles on Teradata topics.

Teradata Education Network Subscriptions

Expand your Teradata knowledge and fully utilize your Teradata systems with a Teradata Education Network subscription. Whether you are new to Teradata Education or an advanced user, we offer training for every skill level.

There are six levels of subscription available to meet ongoing technical and business user training needs. Teradata Education Consultants will work with your organization to determine the right one to meet your objectives.
