TEN MORE REASONS TO CHOOSE TERADATA

What could your agency do with more insight into the filing behaviors of your citizens than ever before? You could start by turning previously uncollectable tax revenue into vital dollars that can be put to use to ease suffering schools, pave unrepaired roads, or support under-funded entitlement programs.

Teradata Tax Compliance Solutions have already helped eight state tax agencies bring in more than $2.2 billion in recovered revenue. That's proof enough you can count on Teradata to help solve your tax compliance challenges. But if you still need another reason to choose us, here's 10 of them:

1 UNPARALLELED INDUSTRY INSIGHT

We've developed Teradata Tax Compliance Solutions in conjunction with knowledgeable tax experts, and we leverage the most recent advances in technology. That means we put all the tools and resources you need to close the tax gap at your fingertips.

2 RAPID RESULTS

Teradata has been successfully deploying compliance discovery and analytics projects since 1999. We've developed a proven, structured approach for identifying recoverable lost revenue. The result? A pre-staged infrastructure that allows our customers to recognize new revenue in as little as 70 days from first installation.

3 AN AGILE, HOLISTIC SOLUTION

Teradata Tax Compliance Solutions offer a balanced blend of people, processes, technology, and data. As your data changes and new sources of fraud arise, it evolves right along with your compliance challenges.

4 REAL STORIES AND "RIGHT" CASES

Our solution pinpoints the real stories behind which taxpayers were merely making honest mistakes and those intentionally choosing to be non-compliant. So you can focus on those cases that offer the best opportunity for ROI.

5 SMARTER, FASTER DECISIONS

Sophisticated analytical capabilities translate data into insight. With Teradata Tax Compliance Solutions, decision makers across your agency can quickly make well-informed, coordinated strategic decisions.

6 EASY, COST-EFFECTIVE START UP

Our shared revenue model means you can leverage data you have already accumulated, and with virtually no up-front investment in new technologies or staffing costs.

7 ADVANCED ANALYTICS

Identify compliance trends. Detect and rank non-compliant entities. Efficiently select, process, and monitor case development. Optimize resource utilization.

8 SCALABLE TECHNOLOGY

The technology behind our solution is easy to deploy and scalable to your business needs. It expands as your data infrastructure grows to include structured and unstructured data.

9 A SINGLE VIEW OF TAXPAYERS

Teradata Tax Compliance Solutions allow you to integrate third-party data with your internal and external data for a complete, accurate view of each taxpayer, organization, and entity.

10 WE DO DATA ANALYTICS

Data Analytics isn't just an "oh, by the way" capability for Teradata. Data analytics are at the core of everything we do. From design to deployment, we know better than anyone in the industry how to create and deliver a tax compliance solution that meets your needs today—and will keep pace with the challenges of tomorrow.
