

The [Teradata Certified Professional Program's website](#) contains valuable information in preparing for certification exams.

Preparing for Teradata Certification

- We strongly encourage all candidates to download the **Exam Objectives** and use in preparation as you will be expected to know all content areas listed in the objectives, for an example view the [Teradata 14 Basics Exam Objectives](#). In addition to your hands on experience, it's critical to review the exam objectives and know all the content.
- **Highly recommended courses** and **experience for each exam** can be found by downloading the [Quick Reference document](#) or reviewing each of the Teradata Certification Exam pages.
- A one-hour webinar [Teradata, Certification What's New and How to Prepare](#) is an introduction to the Certification process which also includes tips on how to prepare for the exam.
- **Education is available through the Teradata Education Network (TEN)**. To find certification [curriculum](#) [course pricing](#) and additional information, please refer to the links at the **Teradata Education Network** site: www.TeradataEducationNetwork.com.
- Additional resources to support and assist with your Teradata Certification goals and the only **Authorized Teradata Certification Study Guides** are available through Amazon.com.
- Candidates should also download the free [TCaPP](#) for instant access to many features and the option to also purchase **exam practice question packs**.

Registering for a Teradata Certification Exam

- All Teradata certification exams are proctored and delivered on computers at Pearson VUE Testing facilities worldwide. Pearson VUE Testing locations and exam fee information is available: www.pearsonvue.com/Teradata.
- Preview this [video from Pearson VUE](#) about what to expect on test day.
- We recommend you familiarize yourself with all [Teradata Certification Program policies](#) prior to testing.
- You will be required to create an account at Pearson VUE to schedule your exam. When creating an account use your **complete name** as issued on your government ID. Be sure to include your **company name** so Teradata can track the number of certifications held by each organization.
