

Job role-based subscriptions

Data Engineer

I design the next generation analytics platform in collaboration with IT. I need to design a flexible and scalable data and analytic environment through validating, modeling, integration, and analyzing our data. I'm also known as: Data Analyst, Data Architect, Data Services.

Tailored for you, the Data Engineer subscription includes 22 courses totaling 101 hours of on-demand content that will help you build your skills to unlock the power of data. Select this subscription if you want to learn about Teradata Database analytics and design, database tuning, Teradata SQL and SQL extensions, and other topics and tools that are critical to excelling in your role.

Courses are listed in the recommended order
