

WHY TERADATA VANTAGE?

Top 10 differentiators that make Vantage a game changer.

Vantage is the platform for Pervasive Data Intelligence. In fact, it's the only data analytic software of its kind. It goes beyond what other analytics platforms can do.

1

CLOUD, MULTI-CLOUD, HYBRID CLOUD.

You have choice for Vantage deployment: AWS, Azure, Teradata Cloud, Customer Cloud, or your own hardware with VMware. Combine on-premises and cloud to support production analytics, test and development, and disaster recovery – or span multiple clouds to diversify risk.

6

RELIABLE, SECURE, AND TRUSTED RESULTS.

Vantage's unified data foundation enables users across your organization with clean, curated data that everyone trusts, so that there's only one version of the truth.

2

UNIFIED DATA AND ANALYTICS ENVIRONMENT.

Vantage delivers fast results to complex business questions by integrating your data and analytics in a unified environment.

7

CHOOSE FROM ALL OF YOUR FAVORITE TOOLS AND LANGUAGES.

Vantage enables users across your organization to perform analytics using their preferred tools and languages based on their business needs.

3

FULLY INTEGRATED DATA FOUNDATION TRUSTED BY THE WORLD'S LEADING COMPANIES.

Companies use Vantage to perform their mission-critical analytics against integrated data delivering cross functional analytics at scale.

8

ANALYTIC ECOSYSTEM INTEGRATION AND SIMPLIFICATION.

Vantage simplifies your ecosystem by empowering users to access data through a single lens. This lets you focus on solving complex business problems, rather than worrying about what system contains the data you need.

4

LINEAR MULTI-DIMENSIONAL SCALABILITY.

Vantage enables you to scale performance across data volume, concurrency, and number of users to keep up with your evolving business needs.

9

YOU RUN IT, WE RUN IT, YOUR CHOICE.

You can have Teradata provision and manage the Vantage environment for you (including software, infrastructure, patches, updates, security, daily backups), or you can run it all yourself. Either way, you're in charge.

5

MULTI-GENRE ANALYTICS.

Vantage answers your most challenging business questions by combining multiple analytic techniques within a single workflow delivering greater insights. It also delivers a discovery ability to explore new data and combine with curated data.

10

LICENSE PORTABILITY.

Vantage license portability means you can easily move workloads between on-premises and cloud with no license transfer fee. It's the same software everywhere, so migrating is easy and helps de-risk your deployment decisions.

These are just the top ten reasons for using Teradata Vantage – and there's a lot more to discover. Everything that Vantage does is designed to empower you to analyze anything, deploy anywhere, and deliver analytics that matter.
